

**Arbor** | Designed by Qdesign

Arbor blends the warmth of the solid wood frame and the nature-inspired form of the poly seat and back to create a chair with a sculptural and organic feel. The soft, curving lines of the back flows effortlessly into the arms and balances the linear lines of the simple dowel legs. The natural beauty of this multipurpose chair combined with the comfort of the ergonomically curved seat and back makes it well-suited for a variety of spaces.
