SPECTRA CLEAN™

What is SpectraClean™ Technology?

The OttLite SanitizingPRO uses patented¹ SpectraClean™ technology to continuously sanitize. Utilizing a narrow band of light wavelengths (405nm), this patented¹ technology has been shown to reduce bacteria* on surfaces directly exposed to sanitizing light through continuous exposure over time. Simply turn on the SpectraClean™ function to begin the process.

¹ US Patents 9,039,966, 8,398,264
